PROJECTS

Grocery Gopher - Express Application

A full-stack web-based app using PostgreSQL, Sequelize, Express, and NodeJS. The app enables the user to create, update, organize, save and retrieve a list of items. The app also assists the user by making their list easier to manage while shopping.

Exoplanet Seeker - Flask Application

A full-stack web-based app using Python, Flask. The app enables the user to access a subset of NASA's exoplanet data and select which values to graph and the graph format to use.

EDUCATION

Software Engineering Immersive - General Assembly, Seattle WA (Jun, 2020)

An intensive, twelve-week, 450+ hour software engineering immersive program teaching full-stack application development with object-oriented programming, MVC frameworks, and SQL and NoSQL database programs.

Bachelor of Liberal Arts, Environmental Studies - Prescott College, Prescott AZ (Dec, 2014)

EXPERIENCE

Geon, Louisville, KY — Compound Operator (Jan, 2019 - Dec, 2019)

Used communication skills to improve team efficiency and coordination. Operated a forklift to load 3,200 lbs boxes onto trailers in a safe and timely manner.
